NEW MASTERS PROGRAMME ON LIBRARY AND INFORMATION SCIENCE

Study Tour on Quality Final Group Work

The NMPLIS Study Tour programme has highlighted and emphasized Quality process and definitions inside Bologna Process. Various stages of this new learning outcomes and competencies needed are visible throughout Europe (for instance Italy, Spain) and the rest of the world. How it is or can work by observing the various LIS institutions of Armenia, Georgia, Uzbekistan?

The purpose of this Group Work and subsequent 15 minutes workshop presentation is to make a start with a description of the various national situations for LIS professionals profile and qualifications, education and training outcomes and an exploration of potential scenarios for a unified international approach to education and training for the cultural and economical development of digital libraries.

Your task is to develop a Master level Curriculum outcomes, taking care of the level, the content and the learning outcomes of the course.
