

# Organizing Further Education in Form of Distance Learning at International Scientific-Educational Center'

***Project funded by "Center for Education Projects"***

Parma, 13-21 September, 2014

## ***Aim***

The purpose of the Workshop in Parma is to understand the issues involved in e-learning education and analyse the Bologna Process (BP) and the European environment with suggested ways of enhancing education quality, with a focus on Italy status

## ***Objectives***

At the end of the Workshop week, the participants are expected:  
to know the e-learning strategies as applied to Higher and Further education in Italy  
to understand the quality indicators, the different approaches of stakeholders, the procedures of e-learning in Higher and Further education  
to analyse the issues of quality of e-learning and recognition of qualifications  
to prepare a project of e-learning for further education courses
